

COMPATIBILITY CHECKER

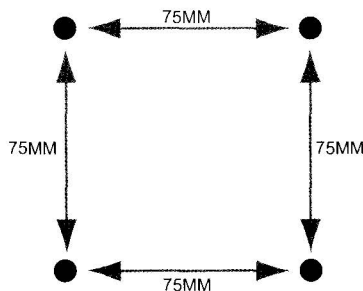

This TV bracket is designed to fit LCD TV's and computer monitors with VESA 50, VESA 75, VESA 100, VESA 200x100 and VESA 200 bracket fittings. These standard fittings are found on almost all systems typically up to 32" diagonal screen size although some may vary - in which case you may need to contact the TV manufacturer for assistance.

To check if your TV or monitor is compliant, look at the back of your system and check it has four equally spaced mounting holes spaced in any of the combinations shown.
